## Hogg Push Top Bottle Adapter

Thank you for purchasing the Cup-A-Saurus® Hogg Push Top Bottle Adapter by Krafty Kow! This adapter is custom made to fit on a Cup-A-Saurus turner and is not made for other brand turners.

### Instructions

1. The push top bottle has a very narrow rim. In order to be able to epoxy to the top, it's necessary to protect the adapter from the epoxy. Before treading the adapter to the bottle, wrap the unthreaded portion of the adapter with painter's tape. You may want to go as far down as the first thread.
2. Insert the adapter into the mouth of the bottle. Turn until the thread is tight but don't force or over tighten.
3. Attach directly to the Cup-A-Saurus turner.
4. Secure thumb screw to the turner.
